

DIFFICULTY STAYING WARM?

ARE YOU LOSING TOO MUCH HEAT FROM SINGLE PANE AND DRAFTY WINDOWS?

IF SO, READ ON:

VOLUNTEERS FROM VARIOUS LOCAL SOCIAL AND RELIGIOUS GROUPS WILL BE BUILDING TRANSPARENT, INSULATING PANELS WHICH FIT SNUGLY INTO THE INSIDE OF WINDOW FRAMES. IN CERTAIN HOMES, HEATING COSTS HAVE BEEN REDUCED BY MORE THAN 20%. THESE INSERTS COST APPROXIMATELY \$25 EACH.

This program is part of WindowDressers, a Rockland based non-profit, that has produced many thousands of window panels. Our community, the Blue Hill Peninsula, has been selected to establish a COMMUNITY BUILD here in Brooksville in conjunction with Reversing Falls Sanctuary, St. Francis by the Sea, Community Resources Collaborative, Brooksville United Methodist Church, and other religious and civic groups working for the common good. Information regarding this product can be found at www.reversingfalls.org and www.windowdressers.org

If you are interested in requesting panels or willing to volunteer and be part of this community event, call 326-8564 thru March. The Community Build will take place in the Brooksville Community Center the last week in October.
