

Reversing Fall Sanctuary's Late Winter/Spring Series

# Water

Essential to our environment

Essential to our experience of  
beauty and wonder

Essential to our very lives

## March 10

Water Music and Poetry. Musicians and poets pay tribute to the ebb and flow of the waters around us. Alison Dibble, Debra Bomba, Sonia Turanski, Ralph Chapman, Emily Blair Stribling, Marie Epply, Anne Ferrara and Gary Vencill will play or read.

## March 17

A screening of the film *Frozen Pond*, followed by a discussion with the filmmaker Edwin Barkdoll. An evening of exploring life under the ice, culminating in the annual amphibian emergence and migration. We will examine many animals from nearly microscopic crustaceans to the shy salamanders and boisterous frogs who emerge after ice breakup. Expect to leave looking at a frozen pond through different eyes.

## March 24

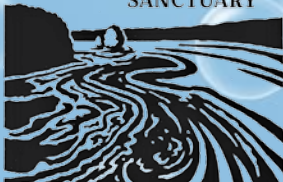

Kimberley Ridley and Rebekah Raye, author and illustrator respectively of *The Secret Pool* and *The Secret Bay*, the award-winning and remarkably beautiful books about water on and around the peninsula, will present the program.

Sundays at 4 pm

## April 7 - 28

*Water: Flow and Form* at the Gallery Within. Please check our website for gallery hours.

REVERSING FALLS  
SANCTUARY

818 Bagaduce Rd., North Brooksville
